

School Name

Arkansas Code Annotated [§6-18-702](#) requires a child for admission to school be immunized from poliomyelitis, diphtheria, tetanus, pertussis, red (rubeola), measles, rubella, and other diseases by the State Board of Health or an exemption as designated by the State Board of Health. An exemption from one or more vaccinations is required annually.

The responsibility for the enforcement rests equally with each school district of this state and the parent or guardian of the child or pupil, and each of them shall be separately and individually liable for permitting any violation of this code.

As an administrator, you are responsible for enforcement of the rules. By signing this page and initialing the following pages, you acknowledge receipt of this information. The following parents/guardians have been notified by phone and mail multiple times and have failed to provide proof of the required immunizations/exemption to be allowed to attend school. According to state statute, you have been informed these students should not be allowed to remain in school until vaccine requirements are met. You further acknowledge if an outbreak of any vaccine preventable disease occurs, Arkansas Department of Health will exclude these students, and they shall not return to school until the outbreak is resolved and the Department of Health approves the return for those who have not been fully immunized.

As an administrator, you are aware information on the number and percentage of students who have been granted an exemption and the number and percentage of students who have failed to show proof of the vaccination status shall be updated annually by December 1<sup>st</sup> and posted and available online to the public, Ark. Code Ann. § 6-18-702 (B)(i-iv(a-b)).
